**TELEPHONE: 813-239-1790**

Effective March 2014 Haskell will be providing Strathmore residents with exterior pest control treatments. This program provides an intensive initial treatment followed by monthly treatments to reduce the insect population and prevent their entry into your buildings. Haskell advises that this program is so effective that they will guaranty the interiors as well. With this program, roaches, ants and silverfish will be systematically maintained. Our scheduled days for treatment are the first four Mondays of each month. Start time for the technician will be around 9am. A specific day of the month is assigned each court for these services.

- 1<sup>st</sup> Monday – Boxwood, Silver Bell and Yucca
- 2<sup>nd</sup> Monday – Elder, Star Apple and Fig
- 3<sup>rd</sup> Monday – Buttonbush, Honeylocust and Corkwood
- 4<sup>th</sup> Monday – Diamond Leaf, Bluff Oak and Arrow Wood

Initially Haskell will be inspecting the exterior of the buildings to evaluate conditions that may invite termites or other pests and will advise corrective measures.

Termite Control: A booster treatment (Termidor Liquid) will be initially applied to the rear of all buildings, and buildings will be routinely inspected for erosion and other conductive conditions.

Pest Control: Your regular technician, Russ Wyzinski, will service the exteriors of the buildings in your court on the above scheduled Monday, except when the buildings are being treated with heavy power spray equipment (different crew) in March and about six months later. His contract number is 941-737-0015. He will also be available Mondays for those who have insect sightings not on their regular scheduled Monday date. (Attic dusting will be done, if required, for elimination of active infestations of ants, etc.).

Should you require a special treatment during the month due to active insect sightings, contact our technician Russ at 941-737-0015. Haskell Pest Control could be contacted directly at 813-239-1790 24 hours in advance of one of the four scheduled Monday for a special treatment and ask for Lydia or Megan. Residents can also e-mail Eric at [eric@haskell-termite.com](mailto:eric@haskell-termite.com) with requests and he will forward them to the office. A fee of \$35 will be charged for services requested on days other than the first four Mondays of each month.
